"CRAFTING YOUR VISION INTO REALITY"

2014

Busy Bricks Interior & Fitouts! Your go-to destination for transforming spaces into stunning reflections of style and functionality.

Since commencing operations in 2014, Busy Bricks has evolved into one of the leading interior contractors and has built a solid track record for successfully complet-ing projects on time, to the budget and to the quality and standards required by the clients. Today, our impressive base of clients reflects our con-sistency in maintaining the highest perfection and exquisite interior design environment in every project we execute.

Our in house team of creative and experienced interior designers, decora-tors, and architects, has the relevant knowledge and flair to put together original designs and concepts in each project.

INTRODUCTION

Over the years, we have successfully completed over countless number of interior turnkey solutions projects in collaboration with architects, designers and high skilled technicians to ensure excellent finish and décor. We are consistently recognized for our business acumen and our variety of innovative design solutions that impeccably blend functional and aesthetic needs.

We offer a complete architecture, master planning, interior design, and graphic design. Our service ranges from conceptual design, production of technical drawings and man-aging of tender process all the way to execution of project on behalf of clients, working alongside building owners, contractors and relevant authorities and submissions and approvals for our projects.

Our team is growing and learning, while forging alliances each passing day with sever-al major players of Projects industry in GCC. Our references of achievements can be discussed through any of industry associates, by any sources at ones disposal, to endorse our goodwill in our achievements from our commitments and deliverances.

We are in a business of giving shape to imaginations - Designs. Designs are not just fancy art sketches, these are the long cherish important achievements of an individual, family or corporate vision deliverance. Converting these designs to reality requires understanding of client's requirements and shape it as our own, with passion to surpass the expectation. We understand our job i.e. to give shape to the design by understanding its spirit and functionality backed with technical expertise of more than 100+ years of combined technical experience of our core team, associated with Busy Bricks in complete synergy and compassion for ensuring monumental achieve-ments throughout.

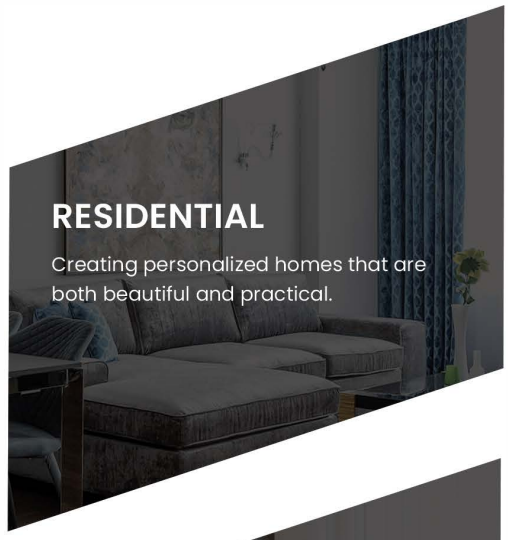

Busy Bricks is a result of vision shaped by great ambitions, observations, and reck-onings. We have envisioned the growth and stability of GCC, thus utilizing this stable platform to erect strong foundations of our company here with the favorable environ-ment enabling our growth offered by the visionary leadership of UAE and determined governments of this region. Success is bound to be achieved! Analysis needs elements like knowledge, hard work, perseverance, and endurance.

We believe when one gives their best efforts one shall be rewarded for their efforts accordingly. We start-ed humble and we want to progress monumental, with con-tributions of our associates and employees collective effort, we will make Busy Bricks Technical Services an estab-lished expert of Construction Industry - as a specialist Contractors in the field of Interi-or Decorations. We welcome all to join me achieve aspirations together. Long live ambi-tion!

Busy Bricks veteran dynamic team of subject experts and professionals of inter-na-tional exposure, backed by strong education from world renowned universi-ties and cosmopolitan work experience has one common goal to achieve - Deliv-er Imagina-tions! We have learned, evolved and we will continue to ascertain by exceeding our own standards with every project we deliver. Yes! We are a bunch of zealots ensuring to push the envelope higher, raising the bar for ourselves until we reach the zenith of this segment, to quest for newer horizons. Busy Bricks is the platform of all zealous individuals to form a confederation to achieve this aspiring feat, if you want to be part of the mission - it is our pleasure to have you on board!

- Commitment
- Deal with Honesty
- Deliver the imagination
- Value for money

This plan defines the procedures and associated resources shall be applied by whom and when to the CLIENT / at Dubai by Busy Bricks Technical Services.

The Intend of this plan is to provide the controls and guidelines for monitoring activities both on site and off side, which could affect the quality requirements of the project.

This plan is applicable to either direct hire or subcontracted work. When works affect-ing the quality are subcontracted, the requirements of the plan will be passed on to the subcon-tractor. All subcontractors and vendors are contractually required to adhere to and comply with Busy Bricks quality project control plan.

Busy Bricks Technical Services work and the subcontractor's work will be moni-tored to the extent required to assure compliance with MAIN CONTRACTOR quality plan.
The plan will be supported by the use of procedures, checklists, instructions, supple-ments, and other appropriate means to the extended required to determined compli-ance with proper requirements.

OBJECTIVE

To provide products and services for the realization of a successful project that meets the contract and project requirements to the satisfaction of the employer. To meet all quality requirements and Busy Bricks performance criteria for the project. To meet all commercial performance criteria, namely schedule and cost by efficient utilization of Global Technology, human and material resources. Quality Objectives of the project are attached, and the proj-ect staff has to do the best to get them.

PURPOSE

The purpose of the quality plan is to ensure that: Contract documents are fully compiled. The project quality requirement of contract are understood and implemented. The quality Man-agement System is planned, Documented, communicated and understood by the project personnel and audited. Quality System aims to minimize errors, waste & production variation, and eliminate Risks arise out of the operations

Safety is the prime concern on the project. The Project Safety Management Plan and programs incorporated in the plan recognize advocates, cultivates and strengthens this concern. The Safety Plan is based on "behavior modifi-cation" and the latest safety trends and complies with safety rules and requirements as per UAE rules and other recognized industry standards. It gives an overview of the concerns and priorities of OWNER and Safety to achieve the No Accident goal.

The "Safety First" philosophy is a paramount consideration in all phases of the project. OWNER including CONTRAC-TOR Management at all levels will operate under the assumption that, "all accidents can be prevented" and that "the safety behavior of all the people on the project can be modified' to embrace the project safety goals and to work together to achieve them.

SCOPE OF WORK

To implement a measurable and comprehensive safety management for Proj-ect False ceiling works, decor, design, for any project. And to comply with such safety Management Plan and legislation to prevent incidents accidents in the work place, as specified in the contract documents.

SAFETY GOALS

Specific safety and health goals for the project are as follows:
No fatality, no lost-time or restricted workday cases and no recordable cases, through a safety plan and safety procedures that are aimed at modifying the behavior of all employees on the project to become safety conscious to pre-vent all accidents and injuries. Provision of medical and first aid facilities to pro-vide immediate treatment and proper management of injuries to prevent it from developing into a more serious type of injury to the benefit of the injured and the project. No onsite damage incidents.
No offsite damage incidents as far as is within the control of OWNER and Project Man-agement.
Avoidance of offsite damage incidents where the control of OWNER and Project Man-agement is limited.

RESPONSIBILITIES

Busy Bricks as contractor shall retain full responsibility for the safety of our personnel. Review possible safety hazards, construction activities, etc., with our personnel. Issue a "Stop Work" order for those events, which pose an imminent danger to personnel,

ENVIRONMENT, OR EQUIPMENT

Ensure that our foreman and personnel understand all necessary precautions to be taken and sees that these precautions are carried out. Makes regular inspections of hand tools and equipment used in all phases of the construction activity. -Immediately corrects any safety deficiencies when identified and/or notified. Immediately informs the main Contractor and Contractor Safety Representative of any and all unsafe conditions or activities.

AUTHORITIES APPROVALS

We specialize in obtaining timely approvals from DEWA, DCD, DDA, and DM, navigating the complex landscape of regulatory requirements with precision. Trust us to handle the approval process, so you can focus on the success of your project.
